

COMPANY PROFILE · 2026

ATUM Group

Heavy steel fabrication, civil works
and electromechanical supplies.

Egypt · Türkiye · Gulf

ABOUT

Built to deliver industrial scope.

ATUM Group is an industrial contractor and supplier serving oil & gas, water, energy, infrastructure and marine clients across Egypt, Türkiye and the Gulf. We operate two complementary entities under one Group:

ATUM Integrated Services
— Egypt

Heavy steel fabrication, civil works, on-site execution and integrated maintenance. Workshop capacity up to DN 3600. ISO 9001 / 14001 / 45001.

ATUM Dış Ticaret —
Türkiye

Trading arm for electromechanical supplies: pipes, flanges, fittings, valves, gaskets, fasteners across CS, SS 304/316 and ductile iron.

AT A GLANCE

DN 3600	ISO 9001 / 14001 / 45001	200+	15+
Max fabrication diameter	Certified management systems	Industrial projects delivered	Years of industrial experience

CAPABILITIES

Six operating capabilities under one Group.

Steel Structure Workshop Piping fittings, high-pressure systems, tanks, pressure vessels and built-up steel structures up to DN 3600.	Flexible Joint Workshop Rubber flexible joints fabricated in-house from DN 50 up to DN 900 — full custom range.
Electromechanical Supply Pipes, flanges, fittings, valves, gaskets and fasteners — CS, SS 304/316 and ductile iron.	Civil Works Concrete structures, steel fixing, formwork, excavation, infrastructure and architectural finishing.
Integrated Maintenance Thermit rail welding, control panel diagnostics, valve overhaul and full plant turnarounds.	Fire-Fighting Systems Pipes, fittings, sprinklers, fire pumps and alarm system supplies — UL/FM compatible ranges.

INDUSTRIES SERVED

Oil & Gas · Water Treatment & Desalination · Power & Energy · Infrastructure · Industrial Plants · Marine

Selected projects.

Sports Hall Arched Truss Replacement

Cairo, Egypt · 2023 · Liebherr 200 t crane

Full replacement of an aged arched roof truss over an active sports hall. Pre-fabricated in-house with full QA, erected at night to avoid daytime downtime. All trusses fit-up first time, project on schedule.

Hot-Gas Line Duct Cone DN 1200 / 3660

Egypt · 2023 · ASME-grade procedures

Plate rolling, full-penetration welding and dimensional control for a large-diameter hot-gas duct cone. Out-of-roundness within tolerance — refractory team installed without modification.

Large-Diameter Steel Reducer DN 1400 / 900

Water Utility · Egypt · 2023

AWWA-grade carbon-steel reducer for a bulk transmission main. Plates cut on plasma table, rolled in-house, SAW welded with NDT, hydro-tested in our test bay before paint and dispatch.

Sonker Storage Tanks T-601 / T-602

Sonker · Egypt · 2022

Fabrication and on-site execution support for two large horizontal storage tanks. Full HSE crew mobilization. Both tanks delivered and commissioned to schedule, zero lost-time incidents.

Venus Barge Structural Refurbishment

Marine Operator · Mediterranean · 2022

Offshore structural repair, plate replacement and welding refurbishment. Marine-grade WPS, engineered scaffolding, vessel returned to operational service.

25 m³ Acid Storage Tank with Surge Vessel

Industrial Plant Operator · Egypt · 2023

Corrosion-resistant horizontal acid tank in a structural safety frame with operating platform. Hydro-test passed on first attempt — delivered as a ready-to-install skid.

Built to international codes.

ISO 9001 Quality management	ISO 14001 Environmental management
ISO 45001 Occupational health & safety	AWWA American Water Works Association
ASME American Society of Mechanical Engineers	ANSI B16.5 Pipe flanges & flanged fittings
EN 1092-1 European flange standard	AWS D1.1 Structural welding code

CONTACT

Let's talk specifications.

Send your project brief, P&ID or RFQ. Our engineering team typically responds with a structured technical proposal within one working day.
